ABOUT ME

Motivated Full Stack Developer with hands-on experience building responsive web applications using React.js, Node.js, Express.js, MongoDB, and MySQL. Skilled in developing RESTful APIs, implementing database operations, and creating user-friendly interfaces. Strong foundation in JavaScript, frontend development, backend architecture, and problem-solving. Seeking an opportunity to contribute to a dynamic software development team while continuously enhancing technical expertise

EDUCATION

Mumbai University | 2025-Present

Master of Science(Computer Science)

Mumbai University | 2022-2025 | CGPA : 8.94

Bachelor of Science(BSc) Computer Science

PROJECTS

FeastFlow | Github

- Developed a full-stack food ordering platform enabling users to browse menus, place orders, and track order status.
- Built responsive user interfaces using React.js for seamless user experience across desktop and mobile devices.
- Developed RESTful APIs using Node.js and Express.js to handle user authentication, menu management, and order processing.

AdvocateHub | Github

- Developed a platform to help clients find and hire lawyers based on specialization, location, and ratings.
- Enable lawyers to showcase their expertise, manage their profiles, and handle, appointments efficiently.
- Created an admin panel to manage users, monitor activities, and resolve platform issues.
